

## Rascal 625 - Large Scooter

---

With top speed of 8mph, chunky 12" wheels and a high backed, fully adjustable seat. The upgraded scooter has performance and puts the 625 in a class of its own.

This model is exceptionally eye-catching and whilst the feature-packed specification makes it superb to ride, it also looks good and is a quality performer. The multi-position tiller and lift-up armrests allow you to tailor the riding position to fit you very snug and gives you easy access on and off. This scooter has individual coil spring suspension which provides a smooth ride over most surfaces and the upgraded seats - which swivel, has six lockable positions - and gives great comfort on long distance journeys.
