

Liteway - Large Boot Scooter

LITEWAY

This scooter is new to the market and ticks all the boxes. When it was demonstrated to us at Laybrook we said it is the best all round scooter we had seen. It is extremely stable and so comfortable it rides like a traditional four wheel scooter, dismantles in seconds with the removable battery positioned at the back at 75 degrees, so its easy to take out , it also has a magnetic basket (very clever) under the seat which gives more stability when full and if you want to take it away the back axel pops off in seconds to make lifting weight of each section extremely light the seat folds to about 5 inches flat and is supremely comfortable.

LITEWAY 4
